Hammocks – Hand-Made in El Triunfo, Guatemala
Mr. Rene Gonzalez and Ms. Vilma Zacarias and her three children

Rationale: The family needs to work to make a living.
We do not give charity; we need to maintain the dignity of all people
We must promote independence; we must help in keeping the family together.
This is the first industry produced in El Triunfo

The Program: The Guatemalan Project provides loans to artisans.
The Guatemalan Project gave the Gonzalez-Zacarias family a \$700.00 loan to buy materials.
It takes two days to make a hammock; each one is unique
They are done by hand, designed by Rene and his wife, Vilma.
The weaving is very tight; that is, the hammock expands to seven feet and returns to its original size.

Donation: \$40.00 plus shipping and handling.
